ground-breaking innovation

multi-cultural interactions

Program Description

The Rutgers-China Summer Bridge Program at Rutgers, The State University of New Jersey, offers Chinese university students an inclusive recreational overview of research in various disciplines at Rutgers.

Throughout the course of the program, students will be exposed to a range of academic and cultural experiences. During the three-week program, students will be trained in the areas of their academic backgrounds, and will have the chance of enhancing their English language skills. The program consists of a series of talks and seminars in the areas of the participating students' academic backgrounds. Students will also be introduced and immersed into the Rutgers student life through interacting with Rutgers students and faculty members and will gain first-hand experience of what a top American university has to offer.

Disclaimer: The Rutgers School of Engineering and the Rutgers China Office reserve the right to change the curricula, dates, and other activities associated with the Rutgers China Bridge Program in Engineering. The provisions of this program do not constitute a contract, express or implied, between any applicant, student, or faculty member and Rutgers University.
